On the Grayslake Campus

By far the largest College of Lake County site, the Grayslake Campus consists of 226.1 acres. About one-third of the campus is currently devoted to buildings and parking areas, and another 20 percent is allocated for future building. Natural beauty is a distinct feature of the campus, and about one-third of the acreage will be permanently preserved as natural areas.

Buildings on the campus have been gradually constructed over the years with careful planning to offer students a rich and stimulating academic experience. Most of the buildings are connected, but a few, such as the gymnasium (Building G) and the Illinois Employment and Training Center, stand alone.

Among the major features of the campus are:

A. Harold Anderson Campus Wing (A Wing), completed in 1974. This wing contains classrooms and faculty offices and currently houses the Social Science Division office (A 244, second floor). The A Wing also includes a court area for student use for study and socializing.

Paul W. Brandel Campus Wing (B Wing), also completed in 1974. This wing contains classrooms and faculty offices and currently houses the Communication Arts, Fine Arts and Humanities office (B 237, second floor). The B Wing also includes computer laboratories and a court area for student use for study and socializing.

The **Library** was completed in 1980. The Library serves as the cultural center of the college and includes the John C. Murphy Memorial Library, an open computer lab, Learning Assistance Center and the Robert T. Wright Community Gallery of Art. The library has more than 125,000 books, 800 periodicals and an extensive media collection. Directly supporting classroom instruction, the Learning Assistance Center provides tutoring and testing services. The Art Gallery serves as a venue for exhibitions and juried competitions throughout the year.

Physical Education Building (Building 7) was completed in 1971 with the gymnasium added in 1980. In 2001, the building was remodeled and the fitness center and locker rooms were upgraded and an aerobics room was added. The building houses the Athletics & Physical Activities Department on the second floor. Intercollegiate athletic contests, intramurals and fitness classes are held in the P.E.C., as well as many in-house and external events. Outdoor athletic and recreation facilities include tennis courts, the Gene D. Hanson Baseball Field, intercollegiate softball and soccer fields and a multipurpose field.

Science/Student Services Wing (C Wing), completed in 1987. This module houses facilities for the biology, chemistry and health information technology programs. Also located in this wing are the Biological and Health Sciences Division office (C 140, first floor) and student service areas including the Counseling Center (C110) and Student Activities Office (C101).

Multi-Use Instructional Building (D Wing), completed in 1996. The Multi-Use Instructional Building is known on campus as the D Wing. It houses the Child-Care Center and classrooms and faculty offices for the art, nursing education, multimedia and human services programs.

The James Lumber Center for the Performing Arts (JLC), completed in 1997. The JLC houses CLC's instructional programs in music, dance and theatre and serves as a venue for performing and cultural arts programming serving the entire community. The facility includes three theatres: a 600-seat Mainstage Theatre used for music concerts and other major events, a 250-seat Studio Theatre used for most other productions and a smaller Experimental Theatre used for student productions and classes. The JLC also includes practice areas for dance, choir and instrumental students as well as classrooms and faculty offices.
