

# A World of Difference in Corporate Education

Successful training takes experts, infrastructure, and resources that many companies do not have. Global Corporate College is the solution to this dilemma, providing access to the largest body of subject matter experts, professional trainers & educators, non-proprietary intellectual property, and technology available today. When working with Global Corporate College, we guarantee satisfaction. What do you get? People who really care about your business. Direct access to a single point of contact. Complete project management. Collaboration with training development & delivery experts. And learning outcomes guaranteed to close the talent gap. Enjoy the convenience of doing business with us.

who

## Who We Are

Thousands of companies do training, but nobody does it like Global Corporate College. As a trusted business partner, and in collaboration with you, we transform ordinary corporate training into a sound business investment, not another training initiative to be enjoyed yet forgotten.

what

## What We Do

Our core offering is a customized training experience that is designed and developed to meet specific learning outcomes. We address your specific business requirements in practical ways, so training is applicable the moment your employees return to work. When you work with Global Corporate College, you get training that sticks. Guaranteed.

how

## How We Do It

We understand how people learn, and we combine that science of learning with the art of training delivery, resulting in true behavior change and skill mastery. In today's complex world, technical skills and soft skills can no longer be separated, and one type of training doesn't fit all needs. So we don't distinguish our solutions by content areas and modalities. Instead, we develop training using the best content and technology that makes sense for your organization.

where

## Where We Are

We are where you are - literally! We know local implementation and contextualization is important, and that's why we have a college and partner network for delivery and support within 30 minutes of every place you do business, worldwide.

## Who We Serve

- Food & Beverage
- Government
- Logistics
- Manufacturing
- Non-Profit
- Professional Services
- Retail Trade

Since 2007 we have been helping companies like yours meet their learning priorities. Serving some of the world's most respected and successful organizations, our work with clients around the globe keeps us in touch with relevant business issues and enduring best practices.

Whether you are experiencing rapid growth, resource restrictions, a need for speed, or specific challenges due to the nature of your business and industry, we are able to leverage our experience and quickly mobilize our worldwide resources to meet your immediate and long-term priorities.
